

## BEFORE SETTING OFF

- > It's well worth giving your bike a quick once-over before setting off, check your gears and brakes are in good condition, your tyres are pumped up properly and if you're going out at night that your lights work.
- > Check the weather before setting off and dress accordingly.
- > Check that the route is suitable for you and your party.
- > If possible let someone know where you are going and make sure that you carry a fully charged mobile phone.
- > Carrying a small cycle toolkit and puncture repair kit can save a long walk home if something goes wrong.
- > If you're going on a longer ride then carrying a drink and an energy snack is advisable

## FISHERMEN & SHIPS

This ride takes in views across the Humber and the picturesque local villages of Great Coates, Stallingborough and Healing. The start of the ride is at Grimsby Leisure Centre on Cromwell Road. There is free car parking available at the Leisure Centre.

When you join the seawall, do stop for a moment and take in the view. The Humber Estuary in front of you is one of the busiest areas of water in the country with ships from all over Europe and beyond visiting the nearby ports of Grimsby and Immingham.

The river itself drains around 20% of the total land surface of England.

The estuary is around 100,000 years old and was formed during the last Ice Age, when it is believed that an ice sheet plugged the mouth of the river causing the build-up of silt and debris behind it. When the ice melted the sea flooded in covering much of the low-lying land creating the estuary as we see it today.

As well as being busy with industry, the river is also home to a host of wildlife. As you ride along you may be lucky enough to see flocks of wading birds feeding on the tiny invertebrates that inhabit the estuary's mudflats. At high tide, when the area is covered in water, you are likely to see local fishermen looking for a catch.

As the route turns away from the water it passes through the historic village of Stallingborough. Dating back to before the Domesday Book the ancient village site is still visible in a series of earthworks to the west of the village church. You may wish to stop off at the village shop or nearby pub for some refreshments before heading back to the start of the ride via Healing.
